Odyssey Manager can assist changes in itinerary or add-on visits along the way if feasible.

About Ladakh: "More Tibetan than Tibet", "Moonland", "the Last Shangrila" are all romantic names given to Ladakh. With its stunning barren rugged terrain and untouched Tibetan culture, it is certainly a beautiful place – befitting all the above & much more. The height of these ranges of the Western Himalayas prevents rain clouds from crossing into Ladakh and as a result, Ladakh receives only about 2 inches (5cm) of rain per year. Ladakh was at the center of the great trade routes across Central Asia, when journeys lasting up to two or three years were not uncommon.
